Внедрение wms системы на складе позволяет значительно оптимизировать процессы учета и управления товарными запасами. Применение WMS открывает новые горизонты для эффективного управления запасами. Внедрение систем WMS делает управление складом более эффективным. Первый шаг в внедрении WMS — это анализ текущих процессов . Определение проблемных зон поможет создать более эффективную систему. Подбор WMS должен основываться на потребностях вашего бизнеса. Следует учесть все аспекты работы вашего склада при выборе системы . После выбора программы начинается процесс внедрения, который требует тщательной подготовки . Успех внедрения во многом зависит от уровня подготовки команды и её вовлеченности.
